

PROJECT

End-to-End Sales Analytics Dashboard in Power BI & SQL

REPORT TYPE

Sales Dashboard Insights Report

This report documents key business insights derived from the interactive Power BI sales dashboard, supported by SQL-based data analysis and transformation.

TOOLS USED

Power BI · SQL · Microsoft Excel

FOCUS AREA

Revenue, Profitability, Customers, Products, Regions

PREPARED BY

Hanzala Khan

OVERVIEW

Business Performance Overview

REVENUE

Revenue & Profitability

Revenue by Category

Profitability by Category

Category	Sales	Profit	Margin	Share
Technology	\$4.70M	\$0.60M	12.8%	37.2%
Furniture	\$4.10M	\$0.37M	9.0%	32.5%
Office Supplies	\$3.80M	\$0.50M	13.2%	30.1%
Total	\$12.64M	\$1.47M	11.61%	100%

INSIGHT Office Supplies is the most efficient category

Despite being the lowest revenue category, Office Supplies delivers the highest margin at 13.2% — outperforming Technology (12.8%) and Furniture (9.0%). Lean cost structure and disciplined pricing are the key drivers.

ALERT Furniture margin is being suppressed by loss-making products

Furniture records the lowest category margin at 9.0%. The Bevis Conference Table alone generates -\$4,377 in losses, pulling down an otherwise stable category performance.

SEASONALITY

Sales Trend & Seasonality

Monthly sales reveal a strong seasonal pattern. Revenue stays subdued Jan–Jun (avg ~\$0.72M/month) before accelerating sharply from July. The peak period Oct–Dec accounts for approximately 35% of annual revenue, with November recording the highest single month at ~\$1.6M.

Monthly Sales Performance

Orange = peak season (Jul–Dec). Grey = low season (Jan–Jun).

RISK

35% of annual revenue concentrated in Q4
Heavy Q4 dependence means any supply chain disruption, competitor activity, or logistics failure in Oct–Dec could materially impact full-year profitability. Building Q1–Q2 revenue buffers is a strategic priority.

CUSTOMERS

Customer Segment Analysis

Segment Performance

Segment	Sales	Profit	Orders	Avg Order Value	Share
Consumer	\$6.51M	\$0.75M	13,000	\$497	51.5%
Corporate	\$3.82M	\$0.44M	8,000	\$498	30.2%
Home Office	\$2.31M	\$0.28M	5,000	\$493	18.3%

KEY FINDING

Order frequency — not ticket size — drives the revenue gap

All three segments spend nearly the same per order (~\$496). Consumer leads purely because of order frequency (13K orders vs 5K for Home Office). Increasing Corporate and Home Office reorder rates is the fastest path to

New vs Returning Customers by Quarter

Quarter	New Customers	Returning Customers	New % of Quarter
Q1 (Lowest)	182	700	20.6%
Q2	486	900	35.1%
Q3	328	1,200	21.5%
Q4 (Peak)	594	1,300	31.4%

PRODUCTS

Product Performance

Top 5 Products by Profit

Product	Category	Sales	Profit	Margin
Canon imageCLASS 2200 Copier	Technology	\$61,599	\$25,199	40.9%
Cisco Smart Phone, Full Size	Technology	\$76,441	\$17,238	22.5%
Motorola Smart Phone, Full Size	Technology	\$73,156	\$17,027	23.3%
Hoover Stove, Red	Office Supplies	\$32,644	\$11,651	35.7%
Sauder Classic Bookcase	Furniture	\$39,108	\$10,672	27.3%

Bottom 5 Products — Loss Making

Product	Category	Sales	Loss	Margin
Cubify CubeX 3D Double Head	Technology	\$11,099	-\$8,879	-80.0%
Cubify CubeX 3D Triple Head	Technology	\$7,999	-\$3,839	-48.0%
Lexmark MX611 Monochrome Laser	Technology	\$16,829	-\$4,589	-27.3%
Bevis Conference Table	Furniture	\$24,431	-\$4,377	-17.9%
Motorola Smart Phone, Cordless	Technology	\$38,931	-\$4,447	-11.4%

CRITICAL 4 of 5 loss-making products are Technology items

The Cubify CubeX 3D Double Head Printer destroys -80% of its revenue as loss on \$11,099 in sales. These SKUs must be discontinued or repriced immediately to stop margin leakage.

REGIONAL

Regional & Market Performance

Sales by Market

Top Countries by Profit Margin

Country	Market	Total Sales	Total Profit	Margin
China	APAC	\$700,380	\$150,658	21.51%
Mexico	LATAM	\$633,538	\$105,367	16.63%
France	EU	\$858,931	\$109,029	12.69%
United States	US	\$2,297,200	\$286,397	12.47%
Australia	APAC	\$925,235	\$103,907	11.23%

OPPORTUNITY

China: 21.5% margin but only \$700K in sales

China is the highest-margin country in the entire portfolio yet ranks 4th by sales volume. Targeted investment in China distribution and marketing could unlock \$2M+ in additional high-margin revenue.

ALERT

Manila is the only top city generating losses

Manila records -9.23% profit margin on \$120K in sales — the only major city in the red. An immediate pricing and cost audit for the Philippines market is required.

RECOMMENDATIONS

Strategic Recommendations

CRITICAL

Discontinue or reprice loss-making SKUs

Five products generate \$25K+ in combined losses. The worst offender records -80% margin. Immediate SKU rationalisation could improve overall margin by up to 1.5%.

CRITICAL

Review Manila market operations

Manila is actively losing money (-9.23% margin). Audit local pricing, product mix, and logistics contracts within 60 days and implement corrective action.

HIGH

Invest in China market development

China's 21.5% margin is nearly double the global average but captures only \$700K in sales. A structured expansion plan here offers the highest return on investment of any market.

HIGH

Implement a discount governance policy

High discount customers are not generating proportionally higher profit. A tiered approval policy for discounts above 15% will protect margin without significantly impacting volume.

MEDIUM

Build year-round customer acquisition campaigns

New customer acquisition drops to just 182 in Q1. Always-on digital and B2B marketing across Q1–Q3 will reduce dangerous Q4 revenue concentration.

MEDIUM

Drive Corporate and Home Office reorder frequency

Both segments match Consumer on order value (\$493–\$498). A loyalty or account management programme increasing their order frequency by 20% adds ~\$1M in revenue with zero new acquisition cost.
